

MOSFET Portable/Wireless Dose Verification Systems & Warming Oven for Patient Positioning Thermoplastics

Portable DOSIMETER

- Stand-alone dosimetry system
- Portable & compact with LCD display
- Optional data export via USB
- No software or computer necessary

mobileMOSFET Wireless

- Dose obtained in Real-Time
- Simplifies dosimetry & minimizes QA time
- Wireless with Bluetooth technology
- Export dosimetry data to R&V system

Huestis Thermoplastics Warming Oven

- No water — reduces potential for cross-contamination & eliminates drying time for wet positioning devices
- Easy-sliding drawer opens fully to provide maximum access to material
- Can be used in CT rooms — no humidity that could otherwise affect the electronics of imaging systems
- Digital temperature setting in Celsius or Fahrenheit
